Dear Colleague:

The New York State Community Action Association (NYSCAA) is pleased to share the Seventh Annual New York State Poverty Report. This report is designed to be a comprehensive resource for New York’s Community Action Agencies, community-based organizations, policy makers, advocates, community coalitions and the general public. The poverty report does not offer policy recommendations; rather, it provides data to inform the larger dialogue on how to address issues related to poverty in communities across our state.

This year marks the 50th anniversary of the War on Poverty. A debate has raged in the media about the nature and success of this historic undertaking. Services such as SNAP (food stamps), Social Security and Head Start have certainly been successful at keeping many families and individuals from falling into poverty and helped others rise up from poverty; the economy has simply not provided enough opportunity for every New Yorker to live above the poverty level. And access to this limited opportunity is increasingly not equal - income inequality is staggering and the gap continues to grow, with political and economic structures facilitating this disturbing trend.

When the US Census Bureau released the most recent poverty statistics in September, 2013, the poverty rate of 15.7% was not statistically different from the year before, which may lead one to believe that things aren’t so bad. However, the past decade has been difficult for middle and low income Americans. In 2000, the US poverty level was 11.3%. By 2007 it had inched up to 12.5%. Holding steady in recent years around 15% is significantly higher than a decade ago and an indication that the recession continues for many Americans.

In this report we have the opportunity to look closely at the areas which need particular attention, such as childhood poverty, the gender wage gap, racial economic disparities and living wages. New York has the fourth largest number of people living in poverty, behind only California, Texas and Florida. Over 40,000 New Yorkers worked full time, year round and yet lived in poverty; 5.1% of New Yorkers who have earned a Bachelor’s or higher degree live in poverty. The gender income gap continues to grow and African Americans, Hispanics and Latinos experience poverty at more than double the rate of white New Yorkers.

Our cities continue to have very high levels of childhood poverty - several more than triple the national poverty rate: Syracuse (51.3%), Rochester (51.1%), Utica (48.5%), Binghamton (47.9%) and Buffalo (46.5%). Statewide, 22.1% of children under the age of 18 live in poverty - nearly a million (935,477) children! Across the state, 54% of children are eligible for free or reduced cost lunch (76% of children in New York City and 40% of children in the rest of the state).

At the same time, New York’s Community Action Agencies are making a difference—over 475,000 people, including 126,279 children and 65,071 senior citizens, were served in New York State during fiscal year 2012 (data from Community Action Partnership 2013 Community Services Block Grant Report). During this 50th anniversary year, as we recognize President Johnson’s declaration of the war on poverty, the signing of the Economic Opportunity Act and the creation of Community Action, we must support successful antipoverty measures such as SNAP, Social Security and Head Start, but we must also work for policies that will increase wages, lower the unemployment rate and address the very serious issues of poverty that remain. We must assure that the promise of opportunity is available for every New Yorker.

Sincerely,

Karla Digirolamo, CEO

All data sources are listed on page 104.
Families in Poverty Data

Of all families that have a female head of household and include at least one child under the age of 18, this percentage is living in poverty.

Unemployment Rate

Unemployment rate, by county, for December 2013

Median Income

Total income is the sum of the amounts reported for wage/salary income, self employment income, interest, dividends, rental income, royalty income, income from estates or trusts, Social Security or Railroad Retirement income, Supplementary Social Security, public assistance or welfare payments, retirement/survivor/disability pensions and all other income.

Living Wage

The wage listed is the wage an individual would need to earn as the sole provider for a household consisting of themselves and one child based on the typical expenses in that county or city. This wage is a minimum estimate of the cost of living for a low wage family.

Hourly Wage

The hourly rate listed is that which one person would need to earn working year round, 40 hours per week in order to afford a 2 bedroom apartment at the fair market rate (FMR) for that county, assuming 30% of income is spent on housing.

Wages include total money earnings received for work performed as an employee, including wages, salary, Armed Forces pay, commissions, tips, piece rate payments and cash bonuses before deductions were made for taxes, pensions, dues, etc.

Maps:

On each county profile page, the map of NYS is included, with the county highlighted in red. The inset map shows the county map with the county seat noted. On city profile pages, the map of NYS is again included, with the county highlighted in grey and the cities noted in red. Inset map is the county, with cities noted.

Population Data:

The population is the official count of people.

The Population for Whom Status is Determined reflects the size of census samples.

For more information see factfinder2.census.gov

Poverty Data:

The poverty rate includes all individuals living in poverty. The numbers are then broken down in three other categories: children under 18, adults over 25 and adults over 65.

The percentage of each group living in poverty is followed by the number of individuals that percentage represents.

Race & Poverty Data

Data on race is based on self-identification. There are a minimum of five categories from which to select, including White and Black/African American. People are able to self-identify as more than one race. People who identify their origin as Hispanic, Latino or Spanish may be of any race.

88% 66% 44% 22% 0%

Education & Poverty Data

The top numbers provided, next to the dark blue squares, indicate the total for each category, as a percentage of the entire population and number of individuals. The number below, next to the lighter square, shows the percentage of all people in that category living in poverty and total number of individuals that indicates.

Employment & Poverty Data

Unemployment Rate - Unemployment rate, by county, for December 2013

Median Income - Total income is the sum of the amounts reported for wage/salary income, self employment income, interest, dividends, rental income, royalty income, income from estates or trusts, Social Security or Railroad Retirement income, Supplementary Social Security, public assistance or welfare payments, retirement/survivor/disability pensions and all other income.

Living Wage - The wage listed is the wage an individual would need to earn as the sole provider for a household consisting of themselves and one child based on the typical expenses in that county or city. This wage is a minimum estimate of the cost of living for a low wage family.

Hourly Wage - The hourly rate listed is that which one person would need to earn working year round, 40 hours per week in order to afford a 2 bedroom apartment at the fair market rate (FMR) for that county, assuming 30% of income is spent on housing.

Wages include total money earnings received for work performed as an employee, including wages, salary, Armed Forces pay, commissions, tips, piece rate payments and cash bonuses before deductions were made for taxes, pensions, dues, etc.

Gender & Poverty Data

Data Sources on Page 104

Please see census.gov for more specific definitions for any of the data sourced from the American Community Survey.

Health & Poverty Data

Based on self reporting this includes people who have: insurance from a current or former employer, insurance purchased directly from an insurance company, Medicare, Medicaid, Medical Assistance, any government assistance plan for people with low income or disability, TRICARE or military

Insurance Data

Families in Poverty Data

Of all families that have a female head of household and include at least one child under the age of 18, this percentage is living in poverty.

This data from the US Census Bureau’s American Communities Survey (ACS) report S1701 - Poverty Status in the Past 12 Months, 2010 - 2012 three year estimates, with the exception of Hamilton and Schuyler Counties, which are based on the ACS report S1701 - Poverty Status in the Past 12 Months, 2008 - 2012 year estimates. (factfinder2.census.gov)
Infant Deaths

Infant deaths, death occurring under one year of age after a live birth, are recorded by county of residence. The infant death rate is the number of infant deaths per 1,000 live births. In New York State in 2011, 1,202 infant deaths occurred. The statewide infant death rate was 5. The data is from Table 45: Infant Deaths, Neonatal Deaths, Post Neonatal Deaths and Perinatal Mortality by Resident County New York State 2011, NYS Department of Health. http://www.health.ny.gov/statistics/vital_statistics/2011/table45.htm

NYSCAA (New York State Community Action Association) was created in 1987 to provide New York State Community Action Agencies with information, professional development and technical assistance to enhance their capacity to serve as effective, responsive community resources. Through statewide legislative advocacy, training and technical assistance, peer support, networking, information technology services, capacity building, recognition and information exchange NYSCAA serves the collective interests of its members. NYSCAA convenes an annual Symposium on Poverty and Economic Security as well as a statewide professional development conference.

New York State, Department of State, Division of Community Services administers the Community Services Block Grant [CSBG] program in New York State. The Governor, in accordance with current federal statute, designated DOS as lead agency for CSBG administration. DCS provides direction and support for local development and implementation of comprehensive, integrated services in accordance with the mission of CSBG and in compliance with applicable state and federal statutes and regulations.
For more information, visit DOS.NY.GOV/DCS

The Community Action Partnership is the nonprofit, national membership organization representing the interests of the 1,100 Community Action Agencies (CAAs) across the country that annually help 17 million low-income Americans achieve economic security.
To learn more, visit COMMUNITYACTIONPARTNERSHIP.ORG.

Hunger Solutions New York develops and distributes information and resources for community-based organizations and agencies to use to further the fight against hunger.
For more information visit: HUNGERSOLUTIONSNY.ORG.

Each year the Assets & Opportunity Network publishes a Scorecard that rates how a state is improving the financial security of its residents. For more information visit: SCORECARD.CFED.ORG.
