RPIC Region II Submits First Training and Technical Assistance Plan

As the RPIC Region II Lead Association, NYSCAA has been an active participant in the OCS-OSCOE Training and Technical Assistance Coordinating Workgroup, comprised of the Community Action Partnership, the National Association for State Community Services Programs, representatives from the federal Office of Community Services (OCS) and the RPIC Lead Associations. This Workgroup convened to develop a more uniform method to identify various state and regional T/TA

needs and available resources. This initiative is intended to promote increased collaboration between and among state associations and state CSBG offices and clarify T/TA capacity at a regional level.

On March 10, with the release of the final T/TA Template, NYSCAA convened training session for the Community Action Partnership of New Jersey and the Puerto Rico Community Action Association to discuss the process for developing their respective state T/TA plan. Future convenings will be held in partnership with the Region II state CSBG offices and associations, to begin crafting the 2017-18 State T/TA plan.

The development of a regional/state T/TA planning approach reflects one of the major 2016-17 CSBG Training and Technical Assistance project goals --- "Maximizing and Aligning T/TA Resources across State CSBG Lead Agencies, State Associations, CSBG-eligible entities and national technical assistance grantees to meet the needs of the CSBG Network in the State."

To date, the initial launch of the new T/TA template has provided NYSCAA, as the RPIC lead association, with a more global understanding of partner state needs, resources and capacity. This valuable information will help to further define and enhance NYSCAA's future activities in the 2017-18 grant cycle.

NYSCAA wants to thank our state CSBG agency, the New York State Department of State, and our state association partners and CSBG lead agencies for their efforts. Questions may be directed to Francesca Sommer, Director of Performance Management Services at fsommer@nyscommunityaction.org.

NYSCAA IT Webinars

Excel Pivot Tables and Charts – September 7th from 10 – 11 AM

In this session, we will learn how to create different types of charts, and analyze large amounts of data through powerful Pivot Tables/Charts.

Graphs are so useful because they display information in a manner that is easy for people to comprehend. Join us to learn how to choose the right chart for your data, and how to tailor it to your needs.

Pivot Tables can help you quickly analyze and summarize large amounts of data. We will look at both Pivot Tables and Pivot Charts – and show you how to make a concise summary out of thousands of rows and columns of unorganized data.

Join us for this webinar to learn more about:

- Pivot Tables
- How to create charts and graphs
- 5 common chart types
- How to fine-tune your charts with additional shortcuts, fills and labels
- How to choose colors, lines and shapes for maximum impact
